

Keene Housing Kids COLLABORATIVE

Our mission is building the foundation for successful adulthood. We do this by giving kids access to opportunities and experiences in the community that will help them gain confidence, have fun, learn, get ready for kindergarten, do well in elementary school, and exit high school with the tools that will help them become economically independent adults.

Eli (9 years old) participates in Cheshire Cats Jump Rope program

"As a Mom it's vitally important to me that my child stays active and involved with many different opportunities. These programs give children the ability to learn from others, learn teamwork, problem solving, time management, keeps them away from screens/video games, helps them meet new friends from different towns/areas and so much more to help them grow as human beings.

But wanting to be involved with so many different things can get expensive. Thanks to the the Kids Collaborative it has helped soften that burden.

In addition I love that the Kids Collab can help boost different programs throughout the area. Some of these programs may not have gotten the turn out or attention before it was available with the Collab.

I know my child loves it and I can say it's been a blessing for me as well."

Community Partner Spotlight: Freedom Reins Therapeutic Riding Center

"Freedom Reins is thrilled to partner with KHKC this summer to bring therapeutic riding opportunities to the Keene community. The kids are learning to ride through activities that promote communication, muscle development, and relaxation exercises, all while enjoying the benefits of fresh air and a nature trail. We love seeing the smiling faces and answering all the questions as we witness the confidence building as they successfully begin to move the horses with minimal assistance. Horses have a way to bring kids out of their shells and empower them in all aspects of life."
